

CALIDAD TURISTICA

## **MANAGEMENT SYSTEM FOR PUBLIC USE OF VERA BEACHES**

The "Management System for the public use of beaches" (Q of the beaches) is to define the requisites for the quality control of the management system, environment and prevention of sanitary hygiene risks, applicable to the activities, resources, services and facilities for public use on the beaches.

It is a framed document to comply with the Spanish Board of Tourism to regulate maintain and improve all quality levels. The requirements are applied to the general secretary of tourism ( SGT ) and the Institute for Spanish tourism (ICTE).

### **INTEGRATED POLICY**

The requisites established in the UNE-ISO 13009:2016 beaches. The stipulations for providing services that are applicable to all infrastructure, facilities and services being fully proficient within Vera Town Hall, directly or indirectly affecting such management and in particular the areas of safety, rescue and first aid, cleaning and waste collection, maintenance of facilities and equipment, sanitary facilities, and access to all information from beach services to entertainment.
